Bus flood detector

Code: JA-110F

The detector is used to indicate flooding (in basements, bathrooms, etc.). This information is transmitted to the alarm system bus.

Product description:

When water covers the electrodes the detector sends an activation signal, a deactivation signal is sent if the water leaves the electrodes.

It has no tamper facilty and occupies one address in the system.

Technical information:

Power	from control panel digital bus 12 V (9 ... 15 V)
Current consumption in standby mode	5 mA
Current consumption for cable selection	5 mA
Detector	reacts to flooding by water
Dimensions	53 x 20 x 10 mm
Operational environment according to	EN 50131-1 II Indoor general
Operating temperature range	-10 °C to +40 °C
Also complies with	EN 50130-4, EN 55022
