IP transmitter for RTSP cameras

Code: JI-120T

It is used to connect third-party cameras via RTSP protocol to the JABLOTRON cloud.

Product description:

The image is transmitted via LAN and Internet to a secure server storage. The user has access to live video via the MyJABLOTRON application, to recordings created based on set events and, according to the subscription service, to continuously stored recordings for each of the connected cameras. The converter sends the recording to the cloud.

Technical information:

Power	USB-C, 5 V DC / 3 A
Quiescent current consumption	400 mA
Maximal current consumption	3 A
Dimensions	116 x 67 x 26 mm
Weight	94 g
Environment	indoor general
Operating temperature range	0 °C to +50 °C
Average operating humidity	75% RH, without condensation
Max. stream bandwidth	20 Mbit
In compliance with	EN IEC 63000, ETSI EN 301 489-1, ETSI EN 301 489-17, ETSI EN 301 893, ETSI EN 301 328, EN 62311, IEC EN 62368-1
Recommended screw	2 x o 3.5 x 40 mm (cylindrical/half round head)
