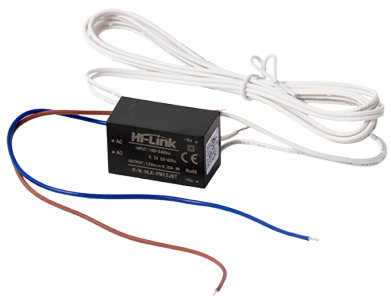
Switching power supply 100–240 V / 12 V/250 mA

Code: HLK-PM12JBT

Miniature switching power supply can be used wherever it is needed 12 V power supply is required and a backup bus power supply is not available.



Product description:

Thanks to its size it can be placed in wiring boxes. It is designed to be installed by a qualified technician.

Technical information:

Supply voltage	100 – 240 V AC
Output voltage	12 V DC
Output current	250 mA
Dimensions	39,5 x 23,5 x 18 mm
Lenght of input wires	20 cm
Length of output wires	1,5 m
Working temperature range	-25°C - +60°C
