

Wireless module for connection of an Ei208W(D) CO detector

Code: JA-150G-CO

This is a plug-in module designed for direct installation in a stand-alone Ei208W or Ei208DW CO detector, which enables its wireless connection to the JABLOTRON 100+ system.

Product description:

It transmits information about an alarm, detector activation and detector battery status to the system. It occupies one position in the system.

Technical information:

Power	from Ei208(D)W battery
Communication frequency	868.1 MHz, Jablotron protocol
Maximum radio-frequency power (ERP)	6 mW
RF range	approx. 300 m (open area)
Dimensions	109 x 24 x 22 mm
Environmental class	II. Indoor general (acc. EN 50131-1)
Operational temperature range	-10 °C to +40 °C
Comply with	ETSI EN 300 220-1, EN 50130-4, EN 55022, EN 60950-1, EN 50581
Operational conditions	ERC REC 70-3
