Bus module for connection of an Ei208W(D) CO detector

Code: JA-110G-CO

This is a plug-in module designed for direct installation in a stand-alone Ei208W or Ei208DW CO detector, which enables its bus connection to the JABLOTRON 100+ system.

Product description:

It transmits information about an alarm, detector activation and detector battery status to the system. It occupies one position in the system.

Technical information:

Power	from the control panel BUS 12 V (9 ... 15 V)
Current consumption in standby mode	5 mA
Current consumption for cable choice	5 mA
Dimensions	48 x 19 x 14 mm
Environmental class	II. indoor general (acc. EN 50131-1)
Operational temperature range	-10 °C to +40 °C
Comply with	EN 50130-4, EN 55022, EN 50581
