

# Bus Access Module with keypad and RFID - grey

Code: JA-113E-GR

The A-113E is an access control module with a keypad and an RFID card reader to control a security system. Contains one operating segment and, if needed, can be equipped with up to 20 JA-192E control segments.

## Product description:

Allows the simple control of a security system using segments. Communicates via and is powered by the bus.

The module has a power saving function.

The module is addressable and occupies one position in the alarm system.

## Technical information:

|  |   |
|--|---|
| <b>Power</b>   | from control panel digital bus (9...15 V)       |
| <b>Current consumption in standby mode</b>             | 10 mA   |
| <b>Current consumption for cable selection</b>         | 20 mA   |
| <b>Each additional control segment</b>                 | 0.5 mA  |
| <b>RFID frequency</b>                                  | 125 kHz   |
| <b>Operating temperature range</b>                     | -10 °C to +40 °C                                |
| <b>Operational environment according to EN 50131-1</b> | II Indoor general                               |
| <b>Classification</b>                                  | Grade 2   |
| <b>according to</b>                                    | EN 50131-1, EN 50131-3,                         |
| <b>Also complies with</b>                              | ETSI EN 300330, EN 50130-4, EN 55022 EN 60950-1 |
| <b>Can be operated according to</b>                    | ERC REC 70-03                                   |
